

If you want sparkling results you need more than just a warewasher.

For more than 60 years, Winterhalter has been delivering the perfect cleaning result. A solution from a single source, Winterhalter offers customers high-quality warewashing hygiene products, efficient water treatment units, accessories and excellent service to accompany their outstanding innovative technology.

A brilliant cleaning result can only be achieved if particular components are combined and precisely balanced. With many years of experience and expertise as a specialist in commercial washing, Winterhalter offers a tried-and-tested, high-quality and reliable range of detergents and warewashing hygiene products.

All Winterhalter branded products, including their chemicals, are produced in their factories. Their in-house development department carries out the product performance and application tests on an ongoing basis to ensure that formulas are adapted for Winterhalter's warewashing solutions. With ever-increasing product demands, their continuous innovations guarantee hygienic cleanliness and shine. Winterhalter warewashing hygiene products are the new standard in shine. Efficiency and user-friendliness are top priorities for Winterhalter. This is why they are constantly working to optimise their products, both in form and content. The Winterhalter range of detergents and warewashing hygiene products is even more effective and precise with its state-of-the-art formulas. The Winterhalter detergent and warewashing hygiene assortment makes handling easier and represents a well-thought-out, language-independent system. In addition, it quickly provides an overview of the product and its field of use. Warewashing solutions are not just about the machine; it's about perfecting the entire process - from the water entering the pipes to the chemicals used.

Winterhalter chemicals

Highly effective and economical detergents and rinse aids that precisely adapt to various applications for cleanliness and hygiene of the highest standard.

Universal detergent F300

Liquid, alkaline detergent with active chlorine; ideal for removing coffee and tea stains.

Glass washing detergent F420e

Environmentally friendly liquid detergent for all water hardnesses.

F6800

Liquid, highly alkaline detergent with intensive starch dissolving power

F8400

Liquid, alkaline, active chlorine detergent.

Glass washing rinse aid B200S

Liquid rinse aid, acidic, highly concentrated

B170XD

Highly concentrated, neutral rinse aid that guarantees the best possible drying results for reusable plastic cups for germ free stacking.

Universal rinse aid B2S

Universal liquid rinse aid, acidic.

Filters AC-M

Make sure you have spare pre-filters on hand.
Charcoal pre-filter for Excellence i and AT reverse osmosis.

Cleaning tablets A15MC

Tablets for the self-cleaning program, available for all models.

A15MC cleaning tablets are used in conjunction with the automatic self-cleaning programme in Winterhalter warewashers. Particularly suited to removing unpleasant odours, the tablets assist the self-cleaning process by removing light limescale deposits and other dirt residues.

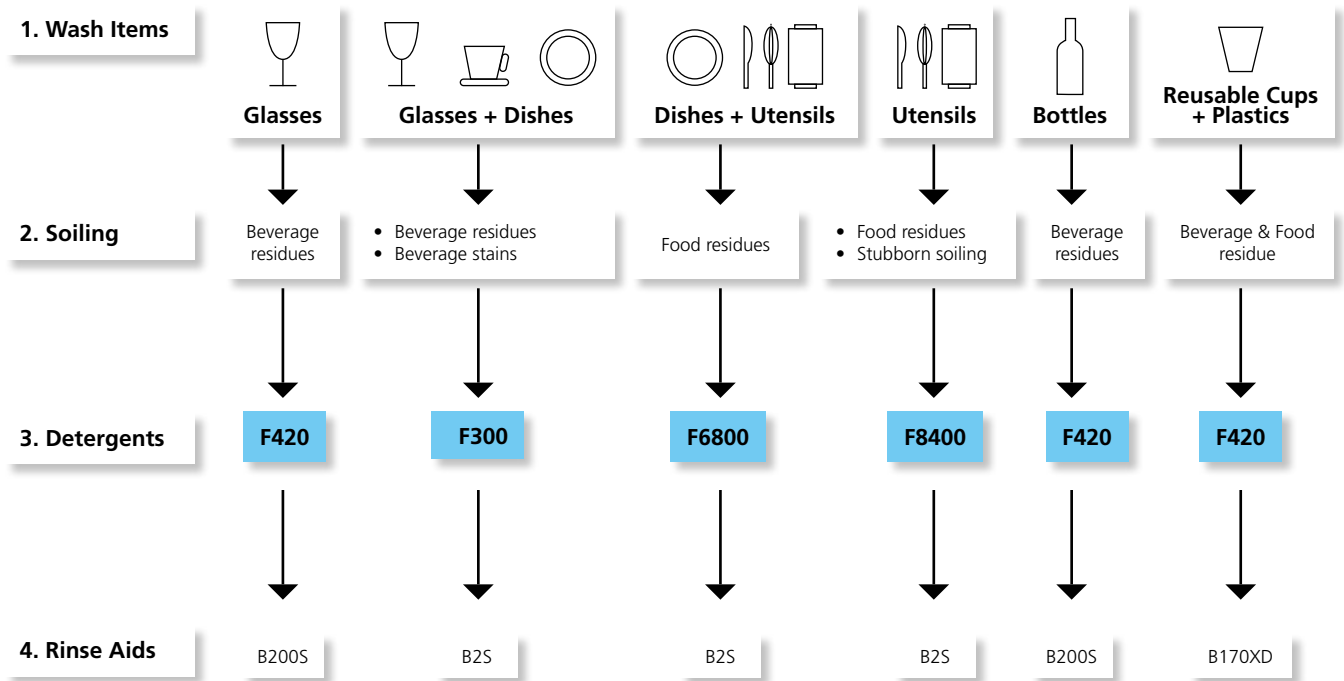

The right detergent & rinse aid in two steps

Winterhalter offers the right detergent for every requirement.

The most important criteria for deciding which one is right for you are as follows:

1. Type of dishes
2. Level of soiling

The following selection guide is intended to help you find the right detergent for all your requirements. Your Winterhalter consultant will gladly advise you should you have any special requirements.

Quality and service – Hand in hand

GLASSWASHING DETERGENTS

Perfectly washed glasses sparkle without polishing

Prevent glass corrosion, protect decorations and still clean thoroughly. With their gentle ingredients, glasswashing detergents ensure the perfect shine with minimum consumption.

Winterhalter advantages:

- Streak free shine
- Perfect beer head stability
- Glasses sparkle for longer

RINSE AIDS

Clear to the very end for a brilliant result

Perfect cleaning results cannot be achieved with detergents alone. Winterhalter rinse aids neutralise detergent residues and rinse off broken down food residue. Special ingredients promote faster drying.

Winterhalter advantages:

- Guarantees fast drying
- Streak free shine
- 100% biodegradable

UNIVERSAL DETERGENTS

Uncompromising cleanliness for mixed dishes

Bistro detergents must be able to remove grease and grime, gently make glasses sparkle and clean dishes hygienically without deposits. This is how they protect your glasses and provide perfect cleaning results and dishes with slight soiling of coffee and tea stains.

Winterhalter advantages:

- Brilliant glasses and flawless dishes
- No bothersome coffee and tea stains
- Gentle cleaning of delicate materials
